## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 5-8 and 10-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Rueth et al (Rueth).

Rueth's Figs. 2 and 5 clearly illustrates a method and a circuit for generating a pseudo-random sequence including a LFSR, first logic that is responsive to the state of the LFSR to produce a first sequence, second logic that is responsive to the state of the LFSR to produce a second sequence and third logic that combines the first and second sequences to produce a pseudo-random sequence that is different from the pseudo-random sequence produced by the LFSR.

### ***Claim Rejections - 35 USC § 112***

3. Claims 6-10, 12 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6, line 10; the phrase "the LFSR state vector" lacks clear antecedent basis. Claim 7, line 10 and claim 12, line 10; "second" should be "third". Claim 21 is inconsistent with lines 8-10 of claim 18.

***Allowable Subject Matter***

4. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claim 9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Specification***

6. In the paragraph spanning pages 4 and 5 a Serial No. and a filing date are lacking.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Malzahn whose telephone number is (703) 305-9762. The examiner can normally be reached on M-Th from 7:30 to 6:00.
